

AMERICAN TALENT INITIATIVE

Welcome to the American Talent Initiative College Scorecards Dashboard!

In collaboration with Davidson's [College Crisis Initiative \(C2i\)](#) and [Project PRONTO++](#), this dashboard provides data visualizations in the form of scorecards and interactive leaflet maps outlining the Fall reopening of different institutions across the nation under the context of the COVID-19 epidemic. This work seeks to leverage data regarding institutions' responses to the COVID-19 global crisis in an effort to create a platform that facilitates the sharing of resources.

The developer team for this project includes Wilbert Garcia and Katherine Smith. Special acknowledgement to the rest of the team at PRONTO++ for their help, particularly Nathan Jordan. Funding provided by a grant to C2i from [ECMC Foundation](#).
