Debunking Myths about COVID-19

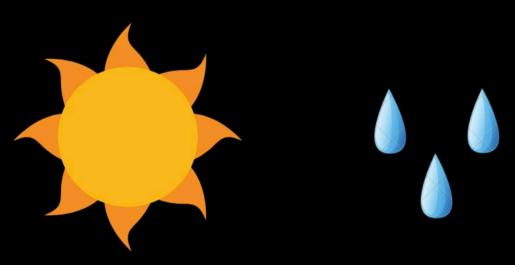

During these trying times it is important to maintain facts about what is going on, along with properly taking care of yourself. Sometimes with the presence of media these can get a little cloudy.

Hopefully, this may clear up some confusion that you may have.

COVID-19 virus can be transmitted in areas with hot and humid climates

"From the evidence so far, the COVID-19 virus can be transmitted in ALL AREAS, including areas with hot and humid weather."

The virus CAN affect younger people, along with older people

"Research indicates that children and adolescents are just as likely to become infected as any other age group and can spread the disease."

COVID-19 CANNOT be transmitted through mosquito bites

"To date there has been no information nor evidence to suggest that the new coronavirus could be transmitted by mosquitoes. The new coronavirus is a respiratory virus which spreads primarily through droplets generated when an infected person coughs or sneezes, or through droplets of saliva or discharge from the nose."

Taking a hot bath does not prevent COVID-19

"Actually, taking a hot bath with extremely hot water can be harmful, as it may burn you. The best way to protect yourself against COVID-19 is by frequently washing your hands."

Drinking alcohol does not protect you against COVID-19

"Frequent or excessive alcohol consumption can increase your risk of health problems."

You do not need special soap to prevent contracting the virus

"Use regular soap and practice washing your hands for 20 seconds to prevent infection."

UV radiation & bleach ingestion are not safe or effective methods to combat COVID-19

"UV Radiation can cause skin irritation and damage your eyes. Methanol, ethanol, bleach are poisons. Drinking them can lead to disability and death."

5G Mobile Networks DO NOT spread COVID-19

"Viruses cannot travel on radio waves/mobile networks. COVID-19 is spreading in many countries that do not have 5G Mobile Networks."

Continue to practice social distancing and proper hand washing.

Stay Safe & Stay Healthy!!
